

## Have your say on the future of our bus routes and safety of our roads

***How often are we stuck at the bus stop with no buses in sight and wish there was somebody to complain to? Well - here is our chance!***

TfL are holding a Community Consultation about issues concerning the A232 - the road between Croydon and West Wickham. There will be a Community Workshop - but, at time of writing, this appears already to be fully subscribed - and a 'Have Your Say' pinboard where residents can post comments.

Apparently this is a trial to see how they can engage local people at an early stage of the process of decisions making - and as such I feel it should be supported!

Please see the following letter and do get involved if you feel you have something to say on the issues. I would be very interested to have members' feedback on what you feel about this community initiative.

Maggie Chan: Publicity and Community Outreach Coordinator

### **Community Discussion on Potential A232 Healthy Streets Scheme**

We want to ensure that buses remain an attractive way for people to move around while continuing to also ensure that those who wish to walk and cycle can do so safely and with confidence.

The A232 is a busy and important route, connecting the Bromley and Croydon with eleven bus routes operating along this corridor, including Superloop 5 (SL5). Unfortunately, we have seen bus speeds reduce in this area, which means people may be less likely to opt for using buses as their mode of transport.

We are exploring potential opportunities for improvements along the **A232 corridor between Sandilands and West Wickham** to improve bus journey times and reduce road danger. On this

potential scheme we are trialling a new approach to our public engagement and consultation, where local communities will be involved in our decision-making process at an earlier stage.

The community discussion is made up of:

- A community workshop, taking place in January. We will invite 24 local people to help shape future changes for walking, cycling, and public transport in the area
- Have Your Say page with community pinboard tool. This allows all community members and stakeholders to share their suggestions and ideas about a variety of topics, including crossing the road, pavements and accessibility

More information, including the pinboard and expressing interest for the workshop is available at: <https://haveyoursay.tfl.gov.uk/a232-healthy-streets>. The page will be open for feedback until Monday 8 February 2026.

Feedback can also be shared by writing to us at:

**FREEPOST TFL HAVE YOUR SAY**

**Transport For London**

**Floor 11, Palestra House**

**197 Blackfriars Rd**

**London SE1 8NJ**

We would appreciate your help in making local residents aware of this community discussion, so all can have their voices heard.

If you would like any further information, or the opportunity to meet further to share your views, please let us know.

Yours faithfully,

**Sienna Fill**
